About Us

We are a cool group of people that just love radio. Just like HAM operators using EchoLink or DMR or IRLP for communicating, these require the internet to make the most of them. You can do DMR radio to radio if you are close to a repeater without the internet which is great, but for really long distance it needs the internet.

DRC (Digital Radio Club) IS All About LTE & WIFI Radio & SWL Digital Decoding:

LTE - LTE is developed for a number of frequency bands – E-UTRA operating bands- currently ranging from 450 MHz up to 6 GHz. The available bandwidths are also flexible starting with 0.2 MHz up to 20 MHz. LTE is developed to support both the time division duplex technology (TDD) as well as frequency division duplex (FDD).

WIFI The 802.11 standard provides several distinct radio frequency bands for use in Wi-Fi communications: 860/900 MHz, 5.0 GHz, 3.6 GHz, 4.9 GHz, 5 GHz, 5.9 GHz, 6 GHz, 60 GHz and 90 GHz

Should you rely on these for emergencies? Well only if the Cell & WIFI infrastructure have not been compromised – If they are down so is WIFI & LTE

This Means LTE & WIFI Radio Are Perfect For:

- A person that may not be able to put antenna's up where they live due to HOA or Strata restrictions.
- People That don't want to do the HAM radio test just to play radio
- People that may want a nice simple way to chat with people globally 24/7
- People that may not want to spend thousands of dollars to get the radio experience

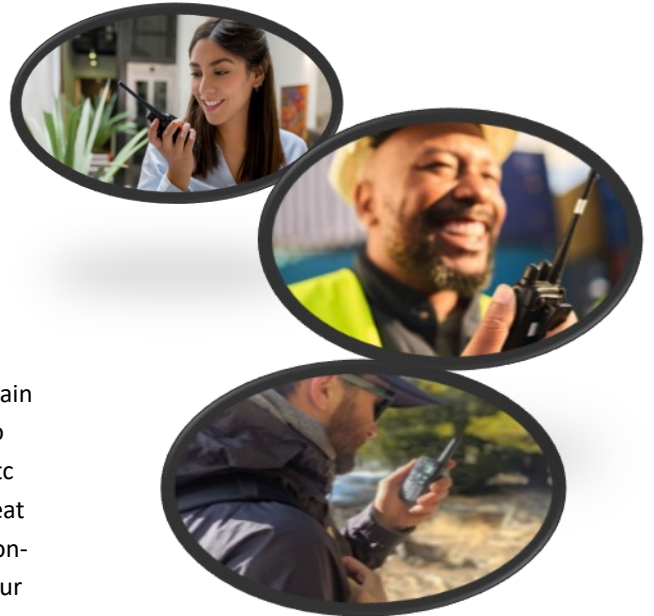

No HAM radio license is needed to participate, we have our own license system in place and everyone qualifies for it No Test Needed!

Membership

Who Is The Club Perfect For?

If you love radio and want to participate in the hobby without having to take a test then this is the closest experience around that can give you the feel of real HF radio! If you live in a uptight HOA and cannot have Radio antenna's at your home then this is the place for you – If you're getting up in age and cannot get up on the roof anymore to put up and maintain antenna's anymore this is for you – If you want to do radio no matter where you are, on the beach – traveling or in a hotel etc then this is the right group for you. If your looking for some great radio projects Look No Further. **SWLQSL DRC** you can always connect and meet and chat with people globally & using some of our awesome tools.

Awards – Certificates – Contests – Radio Projects

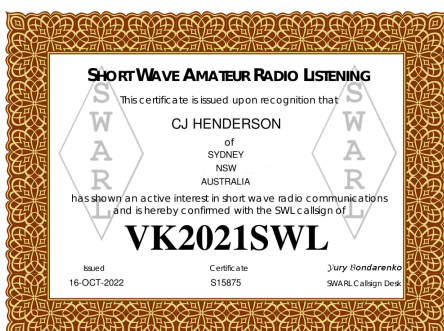

Just like in the real HAM radio world we also have awards, certificates, contests for HF radio and Shortwave Radio that all members can participate in globally. We also have lots of radio projects with some cool tech that you can try.

We add them to our website and many we actually have set up and done ourselves – you can chat with others for tips or check out their videos or profile for info.

SWLQSL launched a Tiny Ground Station satellite tracking using a LORA board and antenna see the project here on our website <https://swlqsl.com/listing/tinygs-satellite-tracking-station/> you will also see the award the Lifetime members can earn for doing this project.

Just Like QRZ.com our members get their own page where they can interact with other members – post up their awards or projects – also comes with built in messaging system included <https://swlqsl.com/listing/cj-henderson-vk2021swl/>

Membership Costs & Access

Membership costs & Setup *Lifetime Membership \$5.99 USD* once you join us as a lifetime member you will receive access to your profile page and linked to your call sign. You will also receive our Lifetime Membership Certificate. On your page you can promote your awards and contacts & receive messages from fans and other members. No Selling on the site but you can link your business website – No Porn or Hate websites should be linked or we will take down your page no refund.

QSL Card Service: \$12.00 USD per year For this we use **eQSL** when you sign up they are the only card service that ask are you a HAM or SWL – choose SWL and once you have your SWL Call sign you can register it with eQSL. We use their service for some of our awards like the IDX award because when you reach certain levels we can actually see that you are certified and at that level. We think like the service and will continue to support them. **To Get The Most Out Of What We Do This Is A Must!**

Total Setup Cost \$17.99 USD

Call Sign - Your Call Sign for shortwave is really important for lots of projects and awards that we do and create. You should also have your call for contests as well; this makes it easy for people running the contest to verify you and your country easily. **To set up your call is FREE and very simple.**

What Radio Is Best For You & 4GLTE Radio Services . We show you how it all comes together; How to use your devices & software or apps to decode and store information & how to report and send QSL cards. We also give you all the tools so that if a HAM operator or another SWL decided to look you up - you would look professional online. We get lots of HAMs replying to us and always glad we spotted them. Most HAM operators love SWL as well.

How To Get The Most Out Of Digital Modes We show you how it all comes together; How to use your devices & software or apps to decode and store information & how to report and send QSL cards. We also give you all the tools so that if a HAM operator or another SWL decided to look you up - you would look professional online. We get lots of HAMs replying to us and always glad we spotted them. Most HAM operators love SWL as well.

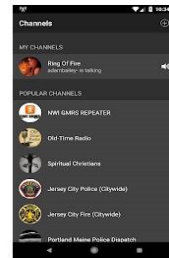

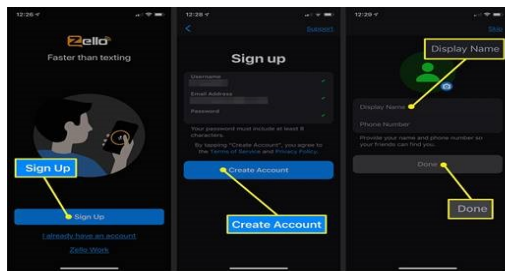

Real Time Propagation & Testing Your Antenna Reception We show you propagation tools and videos by people that know what they are doing. We also will show you how to make your SWL station visible globally when you are operating and show you how this can test your antenna's reception. These things will help you when it comes to contests and other Digital modes you decide to participate in.

SWLQSL Web Profile Membership – Once you have your Hamsphere account set you will get a call sign. Your call sign will be linked to your membership and profile page. As a Lifetime Member you can participate in SWLQSL projects and receive awards that only Lifetime members have access to. *With your profile you can post up awards / photos of you or your city & receive messages from other members – get news and events updates right in your in box. ** Members Lookup you can find any member by simply adding their call sign to the search bar on the main page – Try mine for a test enter the GMRS call sign WRYG735 <https://swlqsl.com/> click on Search and you will see my profile with my GMRS call sign – SWL call sign VK@021SWL.

Awards – Certificates – Contests – Radio Projects. You can also participate in Shortwave Radio contests from us and our partners - - You also get Awards and Projects with SWLQSL that only our Lifetime Members can participate in and earn awards and certificates for participating.

Our 4GELTE Channel is only for our members and you must have a valid call sign to be given access Once we verify you then you will be given access by a moderator – If your call sign is your HAM call sign we can look you up on QRZ all SWL call signs are listed on www.swar1.org - & we can look up GMRS call signs as well.

4GLTE Radio Channel

**Works On Your
Phone Or Tablet
Or Network Radio!**

We have our own ZELLO channel where we give radio heads a place to talk about everything radio or any interesting conversation. Rules: HAM operating rules apply –No bad language / No Politics / No Religion & be kind to others.

NOTE: *You must have a call sign to join that we can verify / Ham radio Call Sign GMRS & SWL Call Signs Only Ones Accepted*

ZELLO App Is FREE!

The cool thing about our ZELLO network is you can use your phone with the app or you can buy a ZELLO Radio or pick up a Bluetooth Mic and pair it with your phone and tablet and get the radio experience. We have a 4GLTE talkie that also does EchoLink & DroidStar & DRM! *Some people have the desktop version of Zello which does cost extra these days.

Lifetime Membership

Coming Soon!

SWLQSL online Radio Nets

Internet radio is generally used to communicate and easily spread messages through the form of talk. It is distributed through a wireless communication network connected to a switch packet network (the internet) via a disclosed source.

Our nets will have international check in's & cover some really entertaining topics. We will from time to time also bring on an expert in a field pertaining to radio to give us information on what they do and how we can apply or test it ourselves.

Regional Managers

We will be looking for people that want the role as entertainment coordinator. These people will put together meetups for our members and friends in their area. This will put their city on the map for all members to see. We will provide the manager with Website access and a promotions page for their city – we will also give them a company email address.

This will be for a go getter – any funds you generate from putting the event together will be your own! The main rule is to make sure our members have a great time – we get lots of photos for our Private FB page. This could be real exciting and fun for the right person, stay tuned!

DRC Gear Coming!

Yes we will be launching some cool gear for the club. You will be able to order online when available.

We will have things like T-Shirts / Coffee Mugs / Key chains & More!

Stay Tuned!

Like What You See? Let's Get Started

Well Awesome lets get thing rolling so that you can get your feet wet. You will need to click join now below and you will be taken to our membership page where everything you need will be explained.

The process is pretty straight forward. Once you have joined SWLQSL.com it will give all digital mode members a place to find others that they can communicate with using Digi modes.

Sometimes the hardest thing about digital modes is knowing when someone will be on so having members messaging & private channel makes it much easier to connect and share globally.

We look forward to hitting the Digital Modes with you and Chatting On the Zello Channel 73's Have a great day.
